Trustees,

I hope everyone had a great Christmas.

Monthly Liquidity

ATRS monthly liquidity needs include retiree benefit payments, funding of approved investments, fees, and other ATRS expenses. The monthly amount for liquidity needs varies and is based on projected cash flows including amounts required for expenses after monthly contributions. Withdrawals totaling $100 million from the SSgA Global Index Fund along with withdrawals totaling $140 million from the BlackRock Global Index Fund were required to cover December liquidity needs.

December payments since the last Board update consisted of several ATRS obligations including capital calls for various investments of approximately $185 million. This includes the Scout (Reams) mandate of $50 million for Israel Bonds and $50 million of the $100 million commitment to the Realty Income US Core Plus Fund. In addition ATRS paid out around $117 million in benefits, close to $160,000 in quarterly investment manager fees, and approximately $1.5 million in refunds and other expenses.

Please let me know if you have any questions.

Thanks
